Upholding their founding principle of artistic diversity and community, the Federation of Modern Painters & Sculptors presents “Annual 2024”.

This year’s summer exhibition celebrates the longevity of this historic organization.

This is the fourth consecutive year for the Federation to exhibit at the Prince Street Gallery. The synergies between these two artist groups are quite evident in their seamless collaboration. There are surprising interconnections to be found when individual artists choose to come together and celebrate art.

The exhibition runs July 9-27, 2024, with an artists’ reception Thursday July 11 from 6-8pm. 19 artists will be represented, a diverse group with a wide range of approaches and subject matter. Works in painting, drawing, sculpture and mixed media will all be on view.
